FROM THE MAYOR

Mayor
Patrick
Dunlavy

I’m beginning to wonder what season we’re really in. I don’t know about all of you, but I have a new appreciation for warm sunny days. Having said that—it could all change if we end up with a long hot summer; none-the-less, I’m very grateful for the moisture.

I want to take this opportunity to express my appreciation to Scott Snelson from the Tooele Applied Technology Center and Dean Gary Straquadine of Utah State

University for the great work they did in getting the funding for the new Applied Technology Center to be built in Tooele very soon. It will add so much to our community. A great big thanks to the City Council for their foresight in support of this super addition. I especially want to recognize and thank our RDA Consultant Randy Sant, who went above and beyond to help secure the funding.

With summer coming, I encourage you to follow the schedules for our summer activities and concerts—there is great stuff coming!

The activities and concert on the 4th of July are going to be really great.

As always, I express my sincere appreciation to the staff and employees at Tooele City for the great job they do. We truly are fortunate to live and work in this special place. We’ll keep working hard.

My sincerest thanks to all of you. As always, if you have questions or concerns, please call me at 435-843-2104 or e-mail me at patrickd@tooelecity.org

WATERING CONSERVATION SCHEDULE

Area #1 All water users North of Vine and West of Main water Wednesdays and Saturdays.

Area #2 All water users North of Vine and East of Main water Tuesdays and Fridays.

Area #3 All water users South of Vine water Mondays and Thursdays.

Outdoor watering is not permitted on Sundays.

The City encourages residents not to water during the hottest hours of the day, typically between 10 am and 6 pm. This conserves water and reduces your water bills.

If there are special circumstances that require a modified schedule for residents or businesses—such as newly planted sod or lawn, contact Tooele City at 843-2150.

City parks and schools have been placed on a modified schedule because of the size of their lawn areas. While some parks and schools may be watering more than two days each week, each specific area of that park is only watered twice during the week.

Thank you for your help in conserving water, a precious resource.
