Subject: Gary Gowen's variance request.

Members of the Board of Appeals; We have checked the floodplain map and indeed the drainage, therefore, the floodplain does pass through the piece of property Dr. Gowen requested the variance on. Therefore, your approval of the variance on the condition that the floodplain passed through the property has been substantiated and the variance is granted. Thank you for your time and efforts. Elisa, please see that this email is attached to the minutes for the Board's approval. Thank you; Cary
